Manual Testing Bug Report

Project: Choose Your Cars (Android Application)

Tester Name: Abhinav Pal

Testing Type: Manual Testing

Date: 05-01-2026

Overview

This document contains issues identified during manual testing of the Choose Your Cars Android application. Testing was performed from an end-user perspective focusing on functionality and usability.

BUG-01: Logout button not working

Screen: Profile Screen

Description: Logout button does not respond when clicked.

Steps to Reproduce:
1. Open app
2. Go to Profile
3. Click Logout

Expected Result: User should be logged out from the application.

Actual Result: Nothing happens when logout button is clicked.

Severity: High

BUG-02: Terms & Conditions and Privacy Policy links not working

Screen: Profile Screen

Description: The links are not clickable.

Steps to Reproduce:
1. Go to Profile
2. Click on Terms & Conditions or Privacy Policy

Expected Result: Relevant page should open.

Actual Result: No page opens on click.

Severity: Medium

BUG-03: Call Now button not working

Screen: Car Description Screen

Description: Call Now button does not perform any action.

Steps to Reproduce:
1. Open car details page
2. Click Call Now

Expected Result: Phone dialer should open.

Actual Result: No response on click.

Severity: High

BUG-04: Feedback submit option missing

Screen: Dealer Section

Description: Feedback input field is present but no submit button is available.

Steps to Reproduce:
1. Go to Dealer section
2. Enter feedback

Expected Result: User should be able to submit feedback.

Actual Result: Feedback cannot be submitted.

Severity: Medium

BUG-05: Wishlist and Share icons not working

Screen: Car Description Screen

Description: Wishlist and Share icons are not responsive.

Steps to Reproduce:
1. Open car details page
2. Click Wishlist or Share icon

Expected Result: Action should be performed.

Actual Result: Nothing happens on click.

Severity: Medium

BUG-06: Hero section cards not clickable

Screen: Home Page

Description: Hero slider cards move automatically but are not clickable.

Steps to Reproduce:
1. Open Home page
2. Click on any slider card

Expected Result: User should navigate to car details page.

Actual Result: No navigation occurs.

Severity: High

BUG-07: Get It Now button not working

Screen: Home Page

Description: Get It Now button does not respond when clicked.

Steps to Reproduce:
1. Open Home page
2. Click Get It Now

Expected Result: User should be redirected to relevant page.

Actual Result: No response on click.

Severity: High

Conclusion

The identified issues affect critical user actions and overall usability. Resolving these defects will significantly improve user experience and application reliability.
